Zion National Park Snapshot 10

Guide Description

AUTHOR NOTE: If you're fit and adventuresome and have a few days to explore Zion for the first time, these two hikes are the ones to do. The Zion Narrows are famous for many reasons, mostly their incredible beauty and the unique aspect of actually hiking in the Virgin River the whole way. The Narrows are so-named because they are cut through Navajo sandstone by millennia of water action. The surrounding walls get as high as 2000 feet and as narrow as 20 feet across. Angels Landing has spectacular views, because you are really high up there! You'll experience all aspects of the Park, from shaded canyons to exposed trail. Both hikes require good preparation; check out the Park's website at <http://www.nps.gov/zion/index.htm> for specific information to help you have the best trip possible.

Itinerary Overview

things to do
restaurants
hotels
nightlife

Day 1 - Zion National Park

DAY NOTE: Angels Landing is perhaps the Park's best-known hike after the Zion Narrows. This jaunt is not for the faint-of heart, the weak-of-knee, nor the fearful-of-heights. Scout Lookout (also unofficially dubbed "Chicken-Out Point"), which you might think is the top until you reach it and see the stomach-droppingly skinny spine you must ascend in order to reach Angels Landing, is a great place for pictures, a deep breath, and an honest assessment of your hiking skills. The 5-mile round-trip trail is best started early in the day during hot months, as it's fairly exposed. Bring water and sturdy hiking shoes (sneakers with good tread will suffice), and trekking poles for the descent if your joints are iffy. Leave little kids, unfit hikers, and show-offs behind (no balancing on the edge; you're flirting with a fatal fall if you do). But the view is beyond description and worth the climb. End your day with homemade pizza at Zion Pizza & Noodle Co. in Springdale, which also features surprisingly good Utah microbrews.

Zion Shuttle

Green travel, multiple stops in Zion and Springdale

Angels Landing

Staggering drop-offs, walking a razor's edge, excellent views, uphill trail

Watchman Campground

Sites near the south entrance

Zion Lodge

The only hotel lodging inside the park

Zion Rock & Mountain Guides if you'd like to learn some basic canyoneering skills; that way, you can explore even deeper into the Narrows and come back with great street cred as you regale your friends and family about dangling from ropes over otherwise impassable pour-offs.

Zion Rock & Mountain Guides

Zion experts, kid friendly, popular, experienced guides

Zion Shuttle

Green travel, multiple stops in Zion and Springdale

The Narrows

Incredible canyon scenery, slot canyons, waterfalls

Red Rock Grill

Fine dining with a view

Watchman Campground

Sites near the south entrance

Zion Lodge

The only hotel lodging inside the park

Day 2 - Springdale, Zion National Park

DAY NOTE: Fill up with a hearty breakfast, load up the daypacks, and take the shuttle to the Temple of Sinawava stop. Riverside Walk to Zion Narrows is often crowded, but foot traffic stops at the river. But your intrepid and well-prepared souls venture right into the water for the experience of a lifetime! Trekking poles or sturdy walking sticks are a must, as are durable and ready-to-get-wet shoes. Your trail is the river. Important: Check with the visitor center (1-435-772-3256) before your trip to make sure the river is open for hiking. Flash flood season (mid-summer to early fall) is tricky. Water flows during the spring can be too high to allow safe entry. Bring your common sense, your river navigation skills, and your appetite for adventure! Walk as long as you want—many people make Orderville Canyon an end destination—before turning back to head to dinner at the Zion Lodge Red Rock Grill. *Note: Take a class or rent gear at

Day 1 - Zion National Park

QUICK NOTE

DAY NOTE: Angels Landing is perhaps the Park's best-known hike after the Zion Narrows. This jaunt is not for the faint-of heart, the weak-of-knee, nor the fearful-of-heights. Scout Lookout (also unofficially dubbed "Chicken-Out Point"), which you might think is the top until you reach it and see the stomach-droppingly skinny spine you must ascend in order to reach Angels Landing, is a great place for pictures, a deep breath, and an honest assessment of your hiking skills. The 5-mile round-trip trail is best started early in the day during hot months, as it's fairly exposed. Bring water and sturdy hiking shoes (sneakers with good tread will suffice), and trekking poles for the descent if your joints are iffy. Leave little kids, unfit hikers, and show-offs behind (no balancing on the edge; you're flirting with a fatal fall if you do). But the view is beyond description and worth the climb. End your day with homemade pizza at Zion Pizza & Noodle Co. in Springdale, which also features surprisingly good Utah microbrews.

1 Zion Shuttle

OUR LOCAL EXPERT SAYS:

Park your car in Springdale so you're not fighting for spots inside Zion. Catch the shuttle in town and ride into Zion in style.

DESCRIPTION: This spring-through-fall shuttle is free, green, and friendly to all, from babies to elderly folks to people with bikes. It is the only way to get around when in season, and it even runs to the gateway town of Springdale. The ease and importance of taking the Zion Shuttle can't be emphasized enough. Ride clean! Save the environment! And allow yourself to settle back and enjoy unparalleled views as someone else steers you through Zion National Park. Bikes, strollers, wheelchairs all welcome aboard as well.

2 Angels Landing

OUR LOCAL EXPERT SAYS:

You'll get cell service at the top. Be respectful of fellow hikers, please!

DESCRIPTION: This is of course the not-to-be-missed hike of Zion. Angels Landing is famous for its views, its drop-offs, and its thigh-blasting climb. It's easy to find a picture spot at the top that makes it look like you're about to step back into sheer nothingness, although you'll be yards away from the edge during your photo shoot. Early mornings and late evenings are best during the blazing and crowded summer months. Remember to seriously check your fear of heights before you tackle this climb; many hikers call it a day at "Chicken-Out Point" (officially Scout Lookout) which still offers nice views without the gut-wrenching proximity of a thousand-foot fall from the aptly-named Angels Landing. Bizarre but true: you can

Photo courtesy of rickbradley

get cell service on top. Please respect your fellow hikers and maintain outdoorsy silence by texting only! © NileGuide

3 Watchman Campground

OUR LOCAL EXPERT SAYS:

Get your reservations in early for a choice riverside site

DESCRIPTION: The Watchman Campground offers visitors a variety of sites: without electrical hookups, with electrical hookups and ones with direct river access. It is advised to make reservations in advance, otherwise sites are offered on a first-come, first-serve basis. Sites: 162 regular, 2 handicapped accessible, 7 group. Tent campsites \$16 per night, electric campsites \$18 per night, riverside electric campsites \$20 per night. © NileGuide

4 Zion Lodge

DESCRIPTION: Zion Lodge is the most convenient lodging option for visitors who do not plan on spending their nights in tents or RVs. The lodge features log cabins as well as motel rooms, all recently restored to their classic rustic style from the 1920s. Zion Lodge is also home to the Red Rock Grill, where visitors can eat while enjoying fantastic views. The lodge is operated by Xanterra Parks & Resorts. Great views, central location, and nice accommodations make this a good choice for Zion visitors who want to be right inside the Park itself with a modicum of luxury above the campgrounds. © NileGuide

3 The Narrows

OUR LOCAL EXPERT SAYS:

Plan ahead, hire a guide if you'd like, check the weather carefully, and bring good shoes and trekking poles. Fall is the best season.

DESCRIPTION: The most famous hike in Zion, the Narrows are world-famous for water, stunning gorgeous cliff walls, and the feeling of hiking deep in the belly of Mother Earth. The Virgin River carved a ridiculously narrow trench through the Navajo rock formations, creating what today beckons to fit adventurers. Bring your trekking poles, water shoes, and waterproof camera for this experience. Stepping into the cool, rocky pull of the Virgin River as you make your way upstream leads you into another world, far from the gaggles of people attracted to Zion every year. The Zion Narrows is an unforgettable hike, designed for permanent capture in breath-taking pictures. If you can hack it, don't miss it. © NileGuide

4 Red Rock Grill

OUR LOCAL EXPERT SAYS:

Sit out on the terrace for full sensory impact!

DESCRIPTION: The Red Rock Grill in Zion National Park Lodge will wow you in both surroundings and menu. Look out at the park from the beautiful terrace while dining on carefully cultivated items such as Prickly Pear Trout Salad, Seafood Alfredo, Chipotle Tilapia, and Navajo Eggplant – this is a Zion experience not to be missed. For all those cocktail aficionados out there, you'll love their spirits menu, featuring Nature's Cosmo, the Springdale Mojito, a Blue Moon Margarita, and a delectable treat known as Persephone's Bane, featuring pomegranate juice and light rum. © NileGuide

Zion National Park Snapshot

Local Info

Zion National Park is among the most popular (2.5 million visitors a year) of the United States' national parks for several good reasons. In practical terms, it's one of the most accessible, being an easy two-hour drive from Las Vegas, NV. The largest city in southern Utah, St. George, is practically at Zion's doorstep just 40 miles west, providing an excellent selection of stores in which to stock up on the basic goods before you hit the trail. Boasting 300+ days a year of beautiful sunshine and blue skies, this park can be enjoyed during all seasons. And with visitation in the peak months of July and August topping 11,000 per day, you might want to consider coming during the other equally beautiful and considerably cooler months.

Zion is exceptionally friendly to bicycle travel, with the paved highway through the Park as well as one trail (Pa' Rus, 3.5 miles along the Virgin River right through the valley; the trail is flat and gorgeous) being open to those of you willing to pedal. In fact, in the summertime, the Scenic Drive is open only to bicycles, chartered buses, and the park's exceptional clean fuel shuttle (which is free). After years of build-up toward smog, traffic, and snarling visitors and rangers alike, Zion opened its shuttle system in 2000, which has dramatically reduced all sorts of vehicle-related problems. The shuttle also stops in several places in the immediately adjacent town of Springdale, making both staying and eating in town a viable option for travelers.

Springdale is an added bonus to the Park's popularity with many different visitors, since those who don't wish to have a strictly wilderness-based experience can retreat to a soft bed, hot shower, and really good meals each night if they want, not to mention a giant screen movie at Zion Canyon Theatre. There are also several guiding companies located in town that offer great package deals so you can really get the most out of your visit. If you can, plan to spend a bare minimum of two full days in Zion in order to get a taste of some

of its best offerings. Zion is often part of a "loop" tour that many people do, which can include venturing on to Bryce Canyon, Capitol Reef, Arches, and Canyonlands National Parks, in order to get an intensive American Southwest experience. Zion is a great place to start off, and it has so much to do and see—take advantage of every minute you spend in this gorgeous, unforgettable place.

© NileGuide

History

Mormon pioneers arrived in Zion in 1863. Issac Behunin built the first log cabin in Zion Canyon, near the location of the current Zion Lodge. Behunin Canyon, a technical slot canyon, was named after him. During the remainder of the century, small communities and homesteads in the area struggled to survive. Pioneers gave the canyon the name "Zion", a Hebrew word meaning safety, or a place of refuge. Despite the name, the canyon offered little arable land, poor soil, and catastrophic flooding, making agriculture a risky venture. By the first decade of the 20th century, the scenic qualities of southern Utah, and Zion Canyon in particular, had been recognized as a potential destination for tourism. In 1909, a presidential executive order designated Mukuntuweap National Monument. The new monument was, however, virtually inaccessible to visitors, since the existing roads were in poor condition and the closest railhead was a hundred miles away. The park's name was changed to Zion National Monument in 1918, and in 1919 the park was expanded and became a national park. Visitation to the new national park increased steadily during the 1920s, and in 1930, the newly completed Zion-Mt Carmel Highway allowed motorists to travel through the park to Mount Carmel Junction, then on to Bryce Canyon and the Grand Canyon. This highway was one of the greatest engineering feats of modern times, requiring the construction of a 5,613-foot tunnel, the Zion-Mt. Carmel Tunnel, to negotiate the vertical sandstone cliffs of Zion. The switchbacks leading up to the tunnel proved to be an even greater task to accomplish. The Kolob Canyons section, near Cedar City was established as

a National Monument in 1937 and added to Zion National Park in 1956.

Hotel Insights

Lodging

* Zion Lodge, (in the canyon, three miles north on the Zion Scenic Drive), +1 435 772-7700 (reserve-zion@xanterra.com, fax: +1 435 772-7792). check in: 4PM; checkout: 11AM. The lodge is open year-round and has 40 cabins and 80 motel rooms. Cabins include two double-size beds, full bath, and fireplace. Motel rooms include either queen-sized beds or a single king-sized bed, air conditioning, and full bath. The restaurant and cafe here are the only options within the park. \$130-\$150 (seasonal).

Lodging is also available in the nearby towns of Springdale and Mount Carmel Junction.

Camping

There are two campgrounds within the main section of the park:

* Watchman Campground, Located near the south entrance (just across the Virgin River from the Visitor Center). Open year-round. This campground offers sites on a first-come, first-serve basis from November through March, while reservations may be made up to five months in advance during the rest of the year reservations.nps.gov. \$16 per site without electric hookups, \$18 per site with electric hookups, and \$20 per site for river sites.

* South Campground, Located near the south entrance (just north of the Visitor Center). Open March-October. All sites in the South Campground are first-come, first-serve. If you're willing to not make any reservations, see if you can get a site here instead of at Watchman, since the campsites generally have more shade and are closer to the Virgin River. \$16 per site, per night.

Both of these campgrounds provide restrooms, picnic tables, RV dump, drinking water and utility sinks.

* In the Kolob Terrace section of Zion, there are six primitive sites at Lava Point. The sites are usually open from June to November, but the road will close in the

Zion National Park Snapshot continued

winter due to snow. There is no water at the campground.

Backcountry

All backcountry camping requires a permit, which is available for a fee at the visitor center. Maximum group size for backcountry usage is twelve people.

Walk-in permits are issued the day before a canyoneering trip. Backpacking permits are issued up to three days prior to the trip date. Permits given out are limited and issued only when the backcountry desk at the visitor center is open. Express Permits allow participants to obtain a permit on-line. Sign-up every three years is required and must be in person and at the backcountry desk. Due to the popularity of the "Subway" and Mystery Canyon, a lottery has been setup to dole out permits for these two technical slot canyons.

Reservations can be revoked in the event of adverse environmental conditions such as flash flood danger. Hikers are required to obtain a permit in person at the backcountry desk the day before or day of a hike.

Pristine Zones allow up to 12 people, and hiking/canyoneering in these zones usually requires technical gear and equipment: Mystery Canyon, Imlay Canyon, Kolob Canyon, Behunin Canyon, Heaps Canyon, Echo Canyon, Spry Canyon, Engstead Hollow, Bulloch Canyon, Ice Box, and the Upper Right Fork of North Creek.

Primitive Zones allow up to fifty visitors: Orderville Canyon, Pine Creek Canyon, Keyhole Canyon, and the Subway.

© Wikitravel

Restaurants Insights

Located near the entrance to Zion National Park, the towns of Springdale and Mount Carmel provide necessary sustenance for weary hikers, bikers, climbers, riders, and locals. A wide variety of food awaits you in Springdale and Mount Carmel, and a short jaunt to the town of Hilldale might even teach you a thing or two about some life in these parts.

If you're looking for a casual room and filling food with a beer on the side, look no further than the beer garden at Zion Pizza & Noodle Company. A local favorite, Zion Pizza & Noodle in Springdale sells delicious homemade pizza accompanied

by Utah microbrews in an outdoor (if you choose) setting. Also in Springdale, the Bit & Spur Restaurant serves creative Mexican food with fresh-fruit Margaritas. Both choices provide hearty grub and a comfortable atmosphere for weary travelers and their feet. Perfect for those with a big appetite, The Pioneer Lodge Restaurant offers all-you-can-eat soup and salad.

If, on the other hand, upscale dining is your cup of tea, head to the Red Rock Grill in Zion National Park itself – the food and the view should be more than enough to keep you from leaving. For the culturally curious, head down to the border town of Hilldale to check out the Merry Wives Café, a nod to the 'alternative' lifestyles of Southern Utah. Those craving Chinese should wander over to Panda Garden in Springdale; guaranteed it will satisfy all of your spring-roll related cravings.

As with the rest of the region, be aware of Utah's liquor laws if you'd like to have a glass of wine, bottle of beer, or cold martini with dinner. Certain establishments have a limited license or none at all, so call ahead if you'd like to ensure you'll be well watered while downing your nibbles.

© NileGuide

Nightlife Insights

Zion has limited nightlife availability, but Springdale makes up for the selection with the quality of options. Movie buffs will love a trip to the Zion Canyon Giant Screen theater, home to Hollywood hits and local lore. Music fans flick to Dixie State College Tanner Amphitheater, where local and regional musicians play to thousands under the stars.

Beer fans will also not be disappointed, with a variety of options available for the brew aficionado. Sitting on top of the Zion Canyon Brewing Company, the Majestic View Steakhouse and Saloon offers up craft ales, lagers, stouts, IPAs, and bitters as well as amazing food and a stunning view of the park. Visitors looking to relax often head to Zion Pizza and Noodle, where the only beer garden in Springdale will welcome you with open arms.

NOTES ON UTAH'S LIQUOR LAWS

It has been mentioned in this section before: if you want to drink in Utah, make sure you understand the intricacies of Utah

liquor laws, as they may determine whether you can have a bottle of beer or glass of wine during dinner. In response to tourist demand, some of these laws are currently changing, so be sure to check in with the establishment you're visiting before you embark.

Contrary to popular opinion, it is not impossible to get a beer in Utah. In fact, beer is available in most supermarkets and convenience stores. It is true, however, that your drinks will most likely have a lower alcohol content than what you are used to back home.

Fully licensed restaurants are free to serve 'heavy beer' (over 3.2% alcohol), wine, and liquor from noon until midnight, with regular beer (3.2% or under) from 10 AM until 1 AM. To drink in a restaurant, you must order a meal and be served at either your table or a waiting area. Restaurants with a limited liquor license cannot serve spirits.

Spirited beverages are strictly portion-measured in Utah. Beer sold in supermarkets and convenience store are a maximum of 4.0% alcohol. For those cocktail enthusiasts out there, be aware that mixed drinks in Utah are limited to 1.5 oz of base spirit per drink, with the option of adding another 1.25 oz of "secondary alcoholic flavoring". Wine is limited to 5 oz per glass.

A 'tavern' is any venue where the sales of beer exceed the sales of food. Beer is sold from 10 AM – 1 AM and can be purchased without food, sold both on draft and in bottles/cans. For those looking to take some beer back to your hotel, most taverns will sell you bottled/canned beer to take home.

Regarding the infamous "private clubs" laws, forcing patrons to take out a membership to imbibe at a full liquor service club, as of July 1st 2009, this law will no longer be in effect. In an effort to supplement Utah's booming tourist industry, the state legislature has struck down the strange-to-outsiders law.

For more information on Utah's liquor laws, please visit http://abc.utah.gov/Liquor_Laws/liquor_laws_affecting_visitors.html

Zion National Park Snapshot continued

Things to Do Insights

A world class park like Zion offers many opportunities for first time and returning visitors alike. The links below provide a wealth of information on things to do.

Hiking

Zion offers many trails ranging from short"leg-stretcher" walks to strenuous adventures. more...

Wildflowers& Fall Colors

A variety of life zones and habitats makes Zion an excellent location for wildflower walks in spring and brilliant leaf color in autumn.

Photography

Zion offers the photographer many opportunities to explore color, texture, and light.

Backcountry Hiking and Camping

The immense backcountry of Zion offers unmatched opportunities for prepared hikers. more...

Birdwatching

Zion is home to 271 species of birds. Bird checklists are available at the visitor centers. more...

Bicycling

The Pa'rus Trail offers a paved, car-free alternative for bicyclists to connect with the Zion Canyon Scenic Drive. Shuttle buses are equipped with bike racks.

Horseback Riding

Canyon Trail Rides offers one hour and half day horseback rides in Zion Canyon. Most people who ride the trails in Zion have never been on horseback before! For more information visit www.canyonrides.com

Ranger-led activities

Join a Park Ranger to learn more about Zion National Park. Topics include animals, geology, plants, human history and more. Programs include Ride with a Ranger shuttle tours, guided hikes, daytime talks and evening programs at Watchman Campground and Zion Lodge. All programs are free. Check the weekly schedules posted at visitor centers and bulletin boards throughout the park for times, places, and subjects. more...

Zion Canyon Field Institute

Imagine hiking with a wildlife biologist, working on a service project in the Zion

Narrows, or discovering the past on an Archaeology Road Trip. Outdoor learning adventures are available with the Zion Canyon Field Institute ©

Travel Tips

By car

The majority of the park is accessible by car, although Zion Canyon is accessible only by the free shuttle from April through the end of October. Large vehicles,(7'10" in width or 11'4" in height),(RV's, buses, trailers, 5th wheels, and some camper shells) that wish to travel the length of the park, require an escort to be stationed at both ends of the Zion-Mt. Carmel Tunnel. Large vehicles have trouble staying in their lane while traveling through the tunnel. Escort costs are\$15 per vehicle, valid for two trips through the tunnel during a seven day period. Very large vehicles, including those taller than 13'1", may be prohibited from entering the tunnel.

During the winter Zion roads are plowed and sanded, except the Kolob Terrace road, which is closed. Be prepared for winter driving conditions, including potentially icy roads, from November through March.

By shuttle

From mid-March through the end of October, Zion uses a shuttle system to eliminate congestion in the canyon. The Zion Canyon Scenic Drive is closed to all private vehicles during this time(except those with a red pass that are staying at the Zion Lodge). Shuttles are fully accessible, with extra room for bikes, backpacks, and climbing gear.

Zion operates two different shuttle routes. One goes through the town of Springdale(see the Get around section on Springdale), and terminates at the Park entrance, within walking distance of the visitor center.

The other route goes through Zion Canyon and has 9 stops: the Visitor Center, the Zion Human History Museum, Canyon Junction, Court of the Patriarchs, Zion Lodge, Grotto, Weeping Rock, Big Bend, and the Temple of Sinawava.

Frequency of the Zion Canyon route depends on the time of day. In Spring and Fall the shuttle runs from 6:45AM-10PM every day, with 7-15 minute frequency. In the Summer(mid-May to early September)

the shuttle runs from 5:45AM-11PM every day, with 6-15 minute frequency, and 30 minute frequency in the very early morning and late evening.

By foot

The beautiful scenery of the park makes a hike practically a mandatory event. Some of the best hikes in the National Park System are in Zion, including Angels Landing and the Zion Narrows. The park offers trails of varying difficulty and length, suitable for twenty minute strolls or multi-day backpacking trips.

By bike

Zion is one of the most bike friendly parks in the National Park System. Bicycles are an excellent option for traveling the Zion Canyon Scenic Drive. Shuttle buses are equipped with bike racks for those wishing to ride only part of the way. Bicycles are permitted only on established roads and the Pa'rus Trail which goes from the Watchman Campground to Canyon Junction. If you're riding from the south entrance into Zion Canyon, take the Pa'rus Trail since it's safer than the main road.

Cyclists must obey traffic laws. Bicycles are not allowed on hiking trails(except the Pa'rus Trail) or off-trail. Ride defensively; automobile traffic can be heavy and drivers may be distracted by the scenery. Park shuttles will not pass bicycles, so use turnouts to allow them to pass. Riding through the Zion-Mt. Carmel Tunnel is prohibited; bicycles must be transported through the tunnel by motor vehicle. Usually the ranger(escort) at the tunnel will ask those driving a truck if bikers can hop in the back of their trucks. If you aren't bringing your own bike there are a few rental agencies in Springdale.

By guided tour

A number of companies provide guided tours of Zion National Park that include transportation from the surrounding areas. Some companies will provide bus travel from nearby towns while others begin in Zion National Park. Some will provide just a brief tour with small stops, while others may take you on a hike, and arrange all your meals.

Hydros Adventures Tours, 928-310-8141. Offers one day and overnight hiking, rafting, backpacking, and adventure tours to Zion National Park, the Grand Canyon, Northern Arizona, and Southern Utah. Pickups

Zion National Park Snapshot continued

in Phoenix, Las Vegas, and the Grand Canyon area.
